Congregational prayer

Our physic is so hygienic and it has the power to cure the diseases itself.

Each and every of our atoms are curing the diseases itself.

I am stronger!

All my family members are living happily in my family!

I am so happy!

My business is going successfully!

My required remuneration is coming towards me!

I live self-oriented life!

I pray the congregational prayer!

I am with unified!

I do only the legal works out of my official instructions.

I would do only the good things in addition to that I would leave to do harmful things!

All of the people in this world are living happily. The Organic agriculture is so prosperous. The administration is so perfect.

The spirituality is in growth!
Let the universe live a long life!
Live a long life!

- Healer Basker

The background of the page is a composite image. On the left, a person in a dark suit and tie is wearing a mask that looks like a golden, ornate face. The mask is adorned with green leaves and small flowers. On the right, there is a large, detailed graphic of a human eye, looking towards the left. The overall color palette is dark with some highlights in gold and green.

THE SOLUTIONS FOR THE ILLUMINATES

Healer Basker, Founder
Art of Self Treatment

We have been speaking for a long time in different topics about the illuminates and the secret society (shadow Government).

Most the persons would have heard about the Topic THE WORLD POLITICS that I publish through the 8 hour audio tape release; In addition to that I have announced that I would reveal the solutions for illuminates.

We all are in the necessary of implementing the solution for the destruction of the illuminates by having

known the solution. This is the moment for finding the solution.

We are going to know the solution through this article.

I believe that here after this article would clarify us how to extricate us from the conspiracy of the illuminates who they crazy of ruling the world.

Immediately we should together implement 4 subjects in order to prevent ourselves.

1. UNITY
2. CONGREGATIONAL PRAYER

3. SELF-ORIENTED LIFE

4. DIS-AGREEMENT to the illegal orders from the higher-official.

The dis-agreement to the illegal orders from the higher official is one of the above-mentioned four subjects.

All the government and private officials and other employees are obeying in-agreeable to their commands without the opposition? They do not analyze why and for what? Even they do not think about the merits and the demerits of the orders.

This kind of surrenders only the reason why the good are defeated and why the evils are succeeded.

Here after we should swear that ever we should obey and implement the orders from the higher official unless those are legal. Similarly you should not implement when the orders are illegal.

More over you should not leave others to do, of course if those orders are there to be implemented by another person.

When the people understood that is the moment when the legal are succeeded and the illuminates are defeated.

Instance when a teacher is teaching the lessons from the book to students He must dare enough to report along with the principal or the educational inspector, Head master, otherwise he should meet the corresponding minister and explain about the default of the subject.

He should deny handling the class because of the default of the lesson from the book. But actually nobody behave like this and no one report respecting the default of the problem.

Incuse if any one dare to speak

along with the educational institution instantly the answer is either you conduct the class in accordance to the lessons of the subjects otherwise simply leave away from the school.

The officials are necessary to obey for the orders from the higher officials by force of the employment environment.

The same obedient system is being followed in the educational system.

The educational faculties should obey for the instructions from the educational ministers. The corresponding employees like the principal, Head-master of the institution should obey for the instructions from the educational officials.

The tress-passers are lost their jobs. Such a incidents are occurring in all departments. It is called in English as (Obedience of the higher authority)

It does mean that the employees should simply obey to the rules and the regulations of the higher authorities. The illuminates have developed such kind of obedient law worldwide. The universal merchants are following this obedient law worldwide.

Similarly the teachers of the school should obey for the rules from the correspondents and principal. Such an invisible dominating administration is the reason of the destruction of the educational system.

The illuminates have brought all kind of departments of the state under to their controls by means of releasing the instructions to all ministers of the

department though the chief-ministers.

As before said how all level educational minister, chief-educational officers, school and college correspondents principals and headmasters, teachers and students have been managed similar all ministers of the state have been dominated by the chief-ministers.

The chief ministers under the control of illuminates, therefore the illuminates only the superior personalities who they have bought all departments under to their control.

They are only the decision makers. They have the deciding authority of the educational system. They are only who control all the departments of all countries.

Do you know about the current educational system of our country?

Concerning the higher educational officials he does not have the power to change the syllabus of the education. Why he should be an educational official when he is not able to do anything regarding the educational amendments?

So the unable of the reformation of the educational system is that obeying the rule of [obedience to the higher authorities]

The second example

A writer who is working in the police department is instructed by his inspector is that the writer should arrest the person Mr. kumar by assaulting at his house and he should be brought to the police station.

As soon as the inspector given the address the writer does as it is without any discreet whether Mr.kumar is good or bad? Should he bring to the station at that time?

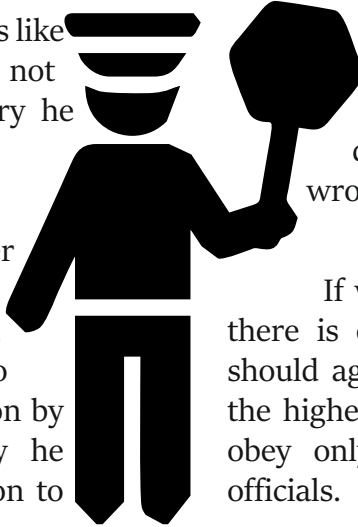

Does the police writer work in the police station of Mofia Gang?

Instance if the fact is different like writer reaches Mr.kumar's house at that particular address then the police writer comes to know that Mr.kumar is an innocent and he did not commit any harm.

Soon the police writer informs to the inspector that Mr.kumar is an innocent in accordance to his enquiry that kumar did not commit any harm and he could not arrest him.

Even though he says like that the inspector will not agree that on the contrary he would scold him.

In case if the writer opposes to arrest kumar soon the inspector would order the police writer to stand in front of the station by holding a gun. Instantly he would send another person to arrest kumar.

Now you say is the police station or militants group? so the rule of obedience of higher authorities is practiced ever in the police station.

They won't ask any questions and opposition to against the injustice. Some police man engages in the office cleaning and traffic maintenance control.

Some persons feel against to the conscience better to obey with higher -official who pay the salary. But a few police persons are asking questions against the justice.

But the department accuses those persons as idiots and accust later they are transferred to indecent areas or reject from the job.

This kind of obedience of higher authorities' law is implemented in all departments. Absolutely it is a wrong procedure.

If we wants to change this trend there is only one way that never we should agree to the illegal orders from the higher official rather than e should obey only to the genuine orders of officials.

Not only we neglect the illegal orders but also we should not leave them to commit those illegal activities through other. I would call as police only such personalities but not others.

Just Instance I mentioned only about those two departments like educational department and police department.

Not only the government departments like this but also all private departments also behave like this.

Third Example

Generally the village officer would recommend for the birth certificate for the babies that born at house. But the government officials would make so many obstacles in order to receive the birth certificate.

Of course the government orders are not there in order to dispense the birth certificate to the babies that born spontaneously at house. Both the village –officers and the officers of the birth death register office should arise the question that why we should not provide the birth certificate to the home born babies?

More over ,they should raise their voice through the telephone or direct meet along with the health-minister.

If you do like this we can say that you do **y o u r j o b** successfully.

On the contrary if you do not raise the question it does mean that you work only for the money not for justice.

Similarly an incident happened at Tuthukudi that the district collector received an order for shooting the public from the minister.

If the collector has refused to accept that order he would be the best collector. *Having refused the order and announce with the public that the minister had given me the order, but I would not implement.* If he had

implemented like that most of the lives would have been refused.

If he is going to obey the orders from higher-official with –out any self-exploration.why se should have studied for the I.A.S?

Rather than studying I.A.S he should have studied the subject called (visuvasam) and he can work with the officers.

Unnecessarily why he should answer for thousand more questions and growing the general knowledge?

So right now an important law must be implemented in all kind of departments that the officials should obey only to the legal orders from the higher-official.

Meanwhile they should pledge that they would not allow anybody to do that commitment. Unless we motivate such personalities then only it is possible to prevent the humanity not only Tamilnadu but also the whole country from the iron –grip of the illuminates and secret society.

Self-oriented life

Self-oriented life means the transaction of money lest should reach with the corporate owner while we purchase the commodities and expense the commodities.

More over manufacturing the non-chemical products through the natural traditional methods and use for our day too day usage, on other hand selling those products is the infrastructure of self-oriented life.

Instance I explain you how the self-oriented life was in the previous dwelling area.

I had been living at the housing unit area which is situated at selvapuram area. Thousand more houses would be together in our area .our house also one of the house of that dwelling area. During that time never I purchased the house -hold groceries from the petty-shops.

If my mother asks me to buy pickle I would buy from the pickle manufacturing lady who is residing 4 houses next to our house.

When she asked to buy soaps I would buy from the soap manufacturer who lives 2 shops away from our house.

If they ask to buy washing lotion I would buy from my uncle father who would produce soap himself. So if I happened to purchase any kind of house requirement I would buy only from direct selling.

So I have the experience of purchasing whatever ingredients at the direct purchase rather than purchase from the shops. Similarly the illuminates have intruded and every country and brought those countries to under their control.

First of all they brought the government of the countries under to their control later they dominate the public.

Apart from this the ideas are cramped into the public through the Medias like Magazine, Television and educate than what to watch? What to hear? What to buy? How to live?

Each and every country has alternated the rules and regulations of the governments and police department in accordance to the flexibility of illuminates.

We can confirm the reason that we have lost the style of self-sustainable life on account of handed over to the illuminates.

Generally if we produce the soap through the organic coconut oil the (T.F.M) would not across 76.5 T.F.M then only it is the genuine soap.

The conspiracy of the corporate companies have been concealed that government instructions this is the proper T.F.M OF soap manufacturing by way of experimenting the wrong experiment.

The soap manufacturing of the corporate companies are using 77 T.F.M amount of chemical mixture in order to manufacture the soap. So the government has recognized the ratio of soap manufacturing in agreeably to the convenience of corporate companies.

No soap companies bother about this. These kinds of orders have

paralyzed the manufacturing of genuine manufacturing through the small -scale industries.

Recently the government have deleted from the small scale industries list by dint of the less quality of T.F.M below 90 T.R.M....

Now the right and power of the soap manufacturing has reached to the hands of the corporate companies on account of the adoption of the corporate companies.

As well as the corporate companies have criticized about the organic oil along with the people and made them to use only the refined oil.

Likewise we can be saving more but I do not want to extend this because already we know about this.

We are in the necessary of teaching to the public for manufacturing their day to day requirements by means of our traditional style. Healer Mathivanan and his collogues are training the public to turn their curiosity towards the self-oriented life.

They have been educating public to produce 42 day to day useful commodities. Our anatomic therapy foundation is supporting them to conduct their demonstration programmer around the Tamilnadu.

This group of persons is providing training for creating 42 daily useful things.

1. Herbal tooth powder
2. Bathing powder
3. Natural shampoo
4. Natural soap
5. Pain relieving oil
6. Face washing powder
7. cajole
8. Hair growing oil
9. Kungumam
10. Hair-die
11. Natural cent
12. Nutricious –flour
13. Cherlog-Ragi
14. Ginger –Coriander coffee powder
15. Tea powder
16. Vegetable essence
17. Natural curd, Natural butter milk
18. Sambar powder
19. Rasam powder
20. Dahl powder
21. Drumstick rice powder
22. Instant dosa powder
23. Kadukai powder
24. Vessels washing powder
25. Clothes washing powder
26. Miscellaneous of liquids
27. Cotton Napkin Manufacturing
28. Use and throw Napkins
29. Mosquito driver
30. Ice-cream
31. Chocolate
32. Biscuit
33. Cake
34. Chips
35. Juice

36. Water filter
37. Refrigerator
38. Air-Conditioned room
39. Gas-stove
40. Herbal pillow
41. Bamboo –Horn
42. Natural dyeing

You participate in the self-oriented life class and learn how to produce 42 kinds of daily useful things yourselves.

Another kind of arrangement has been organized for the people who they cannot participate diversity.

We have organized the video coverage on you tube otherwise you can receive through our office as D.V.D.

The training class is only the initial. Let us begin to learn only the 42 things .later every month we are going to introduce the manufacturing 5 or 10 kinds of things.

Likewise we are going to learn how to produce 100 more products through the self-oriented life.

The main motivation of our teaching is that we should educate public to produce their day to day usages themselves.

The self-oriented life style also one of the methods of escaping from the domination of illuminates.

We are unity in the necessary of being in unity. Developing diversity and dominating us by the conspiracy is the strength of the illuminates and the weakness of the public .The illuminates uses this ignorance for their benefits.

So the unity is called that we all should work-out together and lest we should separate each other. Unity means we should live as the human rather than living as Muslims, Christians, Tamilians, Malayalam, Telegu..

As well as we should not be separated state wise like Tamilnadu, kerala, Karnataka..

Having understood the unity like his way and we can follow like that..It means everybody would have different opinion each other. That should be only motto level but they should be similar in other activities.

If you want to understand that is similar to the love married couples the husband may belong to Hindu religion the wife may belongs to Muslims religion ,Even though they belong different religion they live together in mind level.

Never we had we should give-up our friend on account of the different opinion. There are some types of people who they would enjoy when their controversial friends are suffered.

On the contrary we should help and hand them during the time of pain. Here by again and again I pressurize you that you should be so unity.

Congregational prayer

We all should do the congregational prayer. We can product this would only by thoughts. Here let me prefer some techniques in order to strengthening our thoughts and reform our thoughts.

One the documentary film secret is available both Tamil and English. We should learn to register the good thoughts in our mind by way of watching the documentary film secret continuously which is available in both Tamil and English.

As well as already I have written and uploaded the videos in you tube with regard to the “Ranga Ratina Ragasiyam” “Karma Theory”

You have to register the good thoughts in your mind by way of watching continuously. The aforesaid all Topics are available at our office.

The interesting person can approach directly and receive either the books or DVD rather than we can down load from the Interest from following I.D www.dhamma.org

More over I did not explain deeply about the congregational prayer because

already I have written the article about the congregational prayer .you can understand by reading that article.

Solutions

My dear friends we should follow the four important subjects from this article

1. we should be praying together .
2. We all should turn to self-sustaining life.

3.Obeying only for the legal orders from the higher-officer other hand do not room them to do that illegal works through others.

By following these four practice is the solutions for prevents us from the iron hand of the illuminates. Not only we should walk on the path of above -mentioned four practices but also we should make others to understand.

**LET THE AGRICULTURE GROW
LET THE ADMINISTRATION REFORMED...**

ONE STONE NINE MANGO

If you send a mail to onestoneninemango@gmail.com, you will get replies as nine mails which contain Healer Baskar's **VIDEO, AUDIO, BOOKS** etc.

The Agricultural book

1907

- Healer Basker

I have got one agricultural book which was firstly written in Tamil in Taminadu. The book is contended of 239 pages and this is the first book which has been written in Tamil. Mr,Ramasamy R has translated in Tamil from the English version which was written by c.Bension Durai. Mr.Murugan Ganesh who belongs to kuduvancheri has sent this book me through the E-mail.

As soon as I saw this book I was so happy, because I believed that there may be more informative subjects from that book. This is proving my belief.

I e-mailed to so many friends and requested them to share their valuable considerations regarding that agricultural book on account of I do not know anything about the agriculture and it is too difficult to understand this book by reading.

Somebody say that this book is so interesting to read and they said this book should be delivered to public. So I believe to reform the agriculture by means of making public to receive free of cost. This book was sold for just 8 paise in that course time .I request that this book should be delivered for the free of cost because the contended of this book is more valuable.

If anybody wants this book they should send request the e-mail ID agribook1907@gmail.com in order to receive this book, the 239 pages of first agricultural book would be delivered in; the pdf form.

Later we should take the photo copies or upload in the computer or cell-phone. Similarly you can send to your friends. If you want any clarification regarding this; book you can contact to the below mentioned phone no: 96261 82703

More over a special arrangement has been organized for sake of the persons who they not able to receive this

book through the e-mail or not able to receive through the mobile or whatsapp.

That we take the Xerox copy and make spiral binding later that would be delivered to corresponding address. If anybody wants to receive this book through the whatsapp they can communicate the mobile no: 9626182703

I have mentioned only the topics of this book in this article. When you read this book you would come to know that whatever subjects they have shared.

If you are attracted by this book you read and make others to be benefitted.

The first line

Proofs of the agriculture
The consideration of Agriculturist

Second line

The agricultural land and the cultivation effort
The discipline of the farm, deforest rate the forest and reformation.
Equalize the slide land layer by layer.
Irrigation, The reformation of rigid land, water storage, well making, fencing

Third line

The environment of agriculture
The situation of farm temperature
Forestation, Rain and Expansion

Fourth line

The growth of the crops
Sprout of seeds, water Irrigation

Fertilizer, The substances from the space
The substance from land

Fifth line

The soil and the productivity
The crumbling of rocks
The relevant instruments
The activity of running water
The plants growth on the rocks
The sperm generation
The soil at the generation place
The soil at the generation place
The Transformation of the soil
The land of drain land

Sixth Line

The classification of lands and their altitude
The colors of black, red, yellow soil
The attitude of this color soils
The clay land made of sand and land substance
The altitudes of sand soil limestone
The prosperity and attitude of surface soil and under soil

Seventh Line

Furrow
The duty of Furrowing capacitating the land for seeding
The consideration of furrow
Plough, the sources of the plough
The depth and the condition of this seeding land
The benefits of deep plough
The country furrow stick
The beauty of plough stick

Eighth line

Plough stick

Country plough sticks, and usages of the sticks

The furrowing of country plough stick and its dimension

The registration of plough stick and the cost of the plough

The objections for country furrow stick

Ninth line

Furrowing

The seeding land and the preparation

The diameter and its benefits

The roller, the benefits of the plough stick in order to drive in the middle or the agri land and cleave the land

The additional instruments for cultivation...

The Tenth Line

SOWING THE SEEDS

The season of the seeding

The Condition of the soil and the depth

The benefits of the manual sowing

The benefits of the array sowing

The eleventh line

THE SELECTION OF THE SEEDS

The importance of the Good seeds

The necessary of the Good seeds, the method of the seed selection

The change of the seeds

The preparation of the agri land for seeding

The prevention of the diseases control

The obstruction of the disease

The apt cultivation in agreeable to the soil

The Twelfth Line

Harvesting

The benefits of the harvest and the importance of the harvest

The bad effects of the weeds

The instruments of the cultivation

The Thirteen lines

Water irrigation

The necessary of the water irrigation

The water irrigation for the paddy field

The utility of the plants

The demerits of the water storage

The benefits of the water irrigation

The water irrigation through the country-irrigator

The irrigating instruments

The Fourteenth line

The Fertilizer

Why should we manure?

The herbal manure from the soil

The dilution of the soil prosperity

The kinds of crops that would reduce the prosperity of the soil

The required fertilizers

The kinds of fertilizers

The cow-dung manure and the protection of the that manure

The brunt of the cow-dung

The kind of the cow-dung collection

The cow-dung collection at the earth hole

The attitude of the cow-dung manure and the kind of the utility

Fifteenth Line

The manure of sheep and the utility of the goats

Naragal petai manure: The wastage of the

slaughter house
Bones, Fishes and the punakku
Cow dung manure, the sperm substantial manure
Ash and the drain sand of the pond and lime stone

Sixteenth Line

Soil manipulation and crop alteration
The benefit of the soil manipulation
The soil manure from the soil for the miscellaneous crops
The benefit of the crop alteration
The benefits of the proper crop alteration

Seventeenth line

The kinds of ordinary crops and the progress and the benefits of the ordinary crops
The granary crops
Commercial crops
The paddy cultivation
The plough of the fertile land
The seed in process
Weeding
The American method for the paddy cultivation
The seeding process for dust land
The ritual of Thirunelveli

Eighteenth line

The continuity of the ordinary crops
The kind of crops for the barren land
Maize and cultivate for the cattle feedings and grains
Mullet, ragi, vegetable grains, red gram, Green gram, black gram, horse gram and ground net

Nineteenth line

The crops of hand-craft
The seeds of pain palm
Custard seeds
Gingili seeds
Ground net
Cotton seeds
The fiber crops
Sugarcane and tobacco

Twentyth Line

The cattle of Agriculture
The explanation of cattle
The variety of cattle and their attitude
The cherishment of cattle
The selection and preservatives
The cows for affection
The conservation of calves

The Twenty first lines

The agricultural cattle
Food, water, accombadation,
Food procurement
Grass growing
The usage of salt

The Twenty second line

The agricultural cattle
The milk production
The maintenance of the Milk diary
The hygienic performance of milk, butter, Ghee
Twenty third lines
The kind of goats
Cherishment
Maintenance

The Twenty Fourth Lines

The agricultural cattle

The disease of cattle
 The prevention of cattle disease
 The careful consideration
 The sign of the cattle diseases
 The initial needs of disease prevention
 The ordinary disease
 The comary disease

I request everybody to benefit by way of reading this book and sharing this book.

My heartfelt thanks to Mr. Murugan Ganesh (kooduvancheri) who had sent me the book

Let the agricultural grow!

NOT EVERYONE CAN READ THIS

SELF-SUSTAINABLE LIFE

- Healer Basker

The infrastructure of the self-sustainable life is balancing the money lest it should reach to the corporate owner while we purchase and experience the commodities.

Not only blocking the money to reach the corporate hand but also manufacturing the genuine daily requirements through the natural and traditional methods is the basic of the self-oriented life.

Out of this kind of implementation we can live the simple and eco-friendly life. We consume a lot of things from the shops.

For example since morning to night we depend upon only the corporate manufacturing like paste, brush mosquito coils. But do all these commodities are hygienic? It is not like that.

Not only these kinds of products spoil our health but also it is consequential

effecting to expense a great deal of money for the treatment.

Once upon a time the manufacturing, marketing and consuming everything were under our control before the arrival of corporate companies. But now we have lost the privilege of business because of the corporate arrivals.

Healer mathivanan and his colleagues have been educating the training in favor of the self-manufacturing of the daily needs for sake of the self-oriented life.

Hereafter we are going to learn how to manufacture the 42 self-oriented life requirements. Not only 42 products, yet we have products. We go to create. In case you knew some other manufacturer of new products you can send us the script to our office, otherwise you upload the video and send through the E-mail or whatsapp.

We are going to increase the products up to 500 within this year. All friends are requested to participate their contribution. Instance we use several kind of vessels washing powder from the shop which is made of chemical mixture.

When we use this chemical powder we should wash at least 7 more times in order to clear the stain of the vessels, otherwise the chemical composition will not be removed from the vessels.

But it is not possible in our daily usage because the cost of water is more. hereby we use to eat only the chemical mixing food.

Therefore let us learn the art of vessels washing powder manufacturing. It is 100% natural and non-chemical contend. If we wash only one time it would be shining. we are going to learn many products through the monthly article.

The Dish washing powder

We have been handling various chemical mined dish powder in order to wash the Vessels.

Those would be consisted into liquid powder; soap etc...Once upon a time there was no any kind of chemical lotions at our fire place.

Once we had the habit of using the coconut coir, fire-place ash, cow-dung ash, and tamarind in order to wash the vessels. There was to any side effects to our body

till we were using the above mentioned objects.

But in due-course of time the public were addicted for the products of corporate...

On account of this conversion the humanity is being affected by the invisible molecules.

But we are going to leave the art of daily required objects ourselves through the self-sustainable style.

Ponthikai skin only- 1kg
Red gram- 1\4 kg
Chekai-1\2 kg
Feenugreek-100gm
Fire place ash-sufficient

Demonstration

According to the above mentioned ingredients the ponthikai is out of the list. We should procure those things as it is .you can receive this from the country shops.

Purchase the ponthikai and we should refrains the seeds. concerning the fire-ash is easily available for the persons who use the fire-wood fire places.

There is no the chance of getting the fire-place ash for the persons who they use the gas stoves. So they can burn the paddy barn and receive the ash. It is available at the country shops.

There is an another method for receiving the ash with the free of cost that burning the coconut tiles and use the ash of the coconut tiles.

We can buy the ash soil and use that of course if there is no chance of getting the ash we can find an alternate option without the ash powder. We should dry the other ingredients except the ash in the hot sun and have for the usage.

Why the kadalai powder is used for making the dish wash powder? What is the use of this? Somebody may question.

The kadalai gram is added for the forth in the dish wash powder. The only instruction is that we should not use the poonthikai nets.

We should mix all these above mentioned ingredients and grind at the grain grinding mills. Otherwise if there is no availability of the grain grinding mills We can grind through the mixer from our house. The important note is that we should not mix the ash in the dish washing powder mix initially.

We should mix only after the other ingredients are ground 75% properly. After it ground well we should keep at the

bottle lest the air should enter. It is advisable to protract this powder lest the water should mix into it.

The Benefits

It is an alternate solution against the chemical mixed dish washing powder, soap, liquid items which are sold at the shops. It is very beneficial to the health because of using through the natural products.

There are two benefits that the vessels are shined by only one time wash simultaneously the disease causing germs are eradicated .

On account of using the chemical mixed products of the corporate are required surplus of water rather than it is affecting the soil and the environment, but concerning our natural products it does not harm anything to the body and the water consumption is very less.

There is no chance of the skin problems like itching, allergy, or burning to fingers. It is giving assurances for the safety food and the cooking.

We can use for long time by produced only one time. Not only the unnecessary expenses are avoided but also our money is secured. No happiness is equal to our happiness that we manufacture ourselves. Let us produce the vessels washing powder manufacture and turn to the self-sustainable life.

MULTI PURPOSE LIQUID

We are going to know through this article about only one product which would be multipurpose .we can call this product as the multipurpose liquid. For example we can use this liquid for the floor wiping.

We can use this liquid for clearing the stain of the house-hold articles. We can use this product for clearing the glass, toilet and bathing room. We can use even cleaning the fire-place too.

The process of preparing this liquid is not so difficult it is so easy. Let us see how to manufacture this product.

Required ingredients

The clear water-1 liter
Country-sugar-100 gram
Lemom-3nos

Demonstration

We should take the water one liter. Whatever water it may be that is not

a problem. We can use well water, bore-water, and salt water whatever may be.

We should use only the plastic bottles for this mixture .never we should use the glass bottle because this lemon and jiggery mixture would break the glass bottle.

This plastic bottle should be capable of minimum 2 liters. The container should be capable of more than 2 liters because when we mix the lemon water and the jiggery with the 1liter water there must be sufficient room for storing the air in favor of the chemical reaction.

We should put 100 gram country sugar into that container after pour the 1liter water. Later cut the 3lemons into small pieces and grind nicely through the mixer. It is not important that we should grind nicely. When we use the lemon juice into this mixture it would be well.

We should mix the lemon mixture along with the already prepared country sugar mixture. In the absence of the lemon we can use the citrus acid taste fruits like orange, sweet-lime alternatively.

We should blend the country sugar, lemon mixture as it is blended properly. Blending the country sugar properly is so important. Ten days we should open the container and blend nicely.

We are going to keep this container at the corner safely for 90 days. The durability of this liquid process is 90 days. Meanwhile we should not open the cork or use the liquid is not advisable. We should describe the date of the manufacture in order to know the date of the final 90th day.

If we are able to see the white solid layer under the bottle it is the symptom for the proper preparation, on the contrary if we find the green color it is the symptom that we have not prepared the liquid properly.

We can use this multipurpose liquid for cleaning the floor, chinaware, tiles, kitchen, cosmetic items and bath room. This liquid is used as the best cleaning material when we use after 90 days.

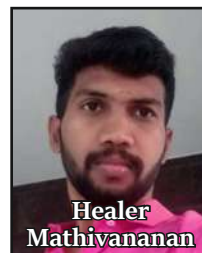

The specialty of this multipurpose liquid is that we can produce this without any chemical combination simply at our house.

Note:

Generally we want to avoid the usage of plastic containers in order to produce this liquid, but here we use the plastic container instead of the glass container on account of the destruction of the multipurpose liquid breaking reaction on the Glass container.

Similarly it is very transparently to watch the white solid layer of the multipurpose liquid. In case if you are able to use any other materials in order to store the container it is inevitable.

BALANCE SHEET OF LIFE

Birth is your Opening Stock.
What comes to you is Credit.
What goes from you is Debit.
Death is your Closing Stock.
Your ideas are your Assets.
Your bad habits are your Liabilities.
Your happiness is your Profit.
Your sorrow is your Loss.
Your soul is your Goodwill.
Your heart is your fixed Assets
Your character is your Capital.
Your knowledge is your Investment
Your age is your Depreciation.

And finally :

**ALWAYS REMEMBER,
GOD IS YOUR AUDITOR**
Have a nice balance sheet of Life
